in a history of modern psychology in context the authors resist the traditional storylines of great achievements by

eminent people or schools of thought that rise and fall in the wake of scientific progress instead psychology is portrayed as a network of scientific and professional practices embedded in specific contexts the narrative is informed by three key concepts indigenization reflexivity and social constructionism and by the fascinating interplay between disciplinary psychology and everyday psychology

abnormal psychology in context is a practical and contemporary handbook for both students of abnormal psychology and allied mental health practitioners this text is one of the first of its kind providing a specific focus on abnormal psychology from australian and new zealand rather than us perspectives nadine pelling and lorelle burton have crafted a highly relevant resource showcasing the most recent australasian research in a clear format designed for ease of use written by leading researchers from australia and new zealand each chapter examines a particular psychological disorder details symptoms and responses and includes relevant statistics case studies further reading and links to community resources the chapters give equal weight to australian and new zealand experiences in abnormal psychology matters succinctly written yet richly detailed abnormal psychology in context is an essential resource that students can carry from the classroom into the workplace

here is a comprehensive introduction to language disorders in children one whose two fold developmental contextual perspective acknowledges that children s language learning systems include not only their skills knowledge and biological abilities but also their language background family settings and the context in which they are attempting to learn language the text s primary focus is on perspectives from normal development and the bulk of the coverage is devoted to examination of expectations for early infant through toddler middle preschool through early elementary and later middle elementary through adolescent stages of learning language these developmentally geared divisions are then used to guide discussions of language assessment and intervention for children who are not learning language normally yet who have characteristics in common with their peers who are
